SUMMARY

Junior Frontend Developer with strong skills in React.js and JavaScript. Experienced in building responsive and user-friendly web applications, with a solid foundation in Redux, React Router, and modern UI/UX principles. Working to continuous learning and eager to contribute to innovative projects.

EDUCATION

Bachelor in Informatics Technology | University of Aleppo | 2019 – 2025

PERSONAL PROJECTS

Online Learning Platform (Graduation Project)

Developed a Coursera-like platform front-end using ReactJS. Implemented user authentication flows and course browsing pages. Collaborated with a team focusing on scalability and clean code.
Technologies: ReactJS and ASP.NET

Cosmetics Store

Developed a full-stack e-commerce platform with authentication and shopping cart. Implemented admin dashboard for product and user management. Designed responsive UI using Tailwind CSS and integrated Firebase for real-time data storage.
Technologies: ReactJS, Tailwind CSS, Firebase, and Redux

JavaScript Simple Games

Developed multiple interactive games: Breakout, Quiz, Typing Speed Test, Whac-a-Mole, Hangman.
Technologies: JavaScript, HTML, CSS

To-Do App

Task management app with features like task creation, deletion, completion toggle, and filtering.
Technologies: ReactJS, Local Storage, and Redux

Budget Tracking Application

Financial tracker for income and expenses. Implemented data persistence via Local Storage and optimized navigation with single-page routing using React Router.
Technologies: ReactJS, Local Storage, React Router

News Blog Application

Developed a news app integrating external APIs delivering 50+ live articles daily. Implemented search and category filtering, and added blog functionality for creating, editing, and deleting entries.
Technologies: ReactJS, API integration

Weather App

Dynamic web application displaying weather from all over the world using Weather API. Saved latest search in local storage and allowed toggling between Fahrenheit and Celsius.
Technologies: JavaScript, API, Local Storage

EXPERIENCE

Frontend Developer Intern — Mad Solution   July 2025 – Present

Collaborated with senior developers on client projects using ReactJS, JavaScript, Tailwind CSS, Agile workflow, and Git. Built responsive UI components and improved site performance.

TECHNICAL SKILLS AND INTERESTS

Frontend Development: HTML5, CSS3, JavaScript (ES6+) **Frameworks Libraries**: React.js, Redux, React Router DOM, Tailwind CSS, Bootstrap **Tools Platform**s: Git, GitHub, VS Code, npm, Vite **Other**: Responsive Design, API Integration (REST)

Relevent Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Software Engineering.

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

CERTIFICATIONS

- Google Digital Marketing Course (Ongoing)

- Meta Front-End Developer Professional Certificate (Coursera), including:

    - Introduction to Front-End Development
    - Programming with JavaScript
    - Version Control

LANGUAGES

- Arabic: Native

- English: Intermediate
